Contextual Inquiry Testing

Process, Schedule, and Participants

Oct. 26 in Lab

Study on Wednesday Oct. 26

- Remember, that pilot data is not kept but rather informs changes that need to be made before the actual study. You will not use your pilot data when analyzing your results.

- You will analyze the results from your real study.
  - One researcher directs the user and asks the questions. Other researcher/s will fill in the observation sheets - making notes of not just user behaviour but problems with task descriptions/questions (good info).
  - Use all your scripts and task descriptions and questions like you did in the pilot study.
  - Record answers and observations on your observation sheets as like you did in the pilot study
  - Every group will have 4 researchers at a time – one of your group members for three rounds of testing will be a participant (user) for other groups.

Schedule and Process

- 5:30 – show up and organize all your notes

Remember – I'll post a schedule and list of users who act as study participants

- 5:45-6:15: User 1 will go to the given group to perform the study tasks [Groups need to make sure that testers know which group to go to]
  - The rest of the team will run the study. Remember NO NAMES (or anything identifying) are collected or recorded during the study. Use participant numbers only!

- 6:30-7:00: User 2 will go to the given group to do the study
  - The rest of the team will run the study. Remember NO NAMES are collected or recorded during the study. Use participant numbers only!

- 7:15-7:45: User 3 will go to the given group to do the study

- NOTE: if a member who has been identified as a participant is not present, the group needs to select another member to be a tester for that round (even though they may have already been a pilot user AND they can test for the same group). **Any missing members must be recorded in the project logs – (please do not leave your group short handed for this important lab).**

- While each user should be about 20-30 minutes, there is a 15-minute buffer between users. You will run one person at a time.

Round 1 (5:45-6:15)	Participant	GOTO	Group
For example, In round 1 Bhavna Jindal (from yellow group) will be a pilot tester for the Maroon Group. *After this round, Bhavna will go back to their group. [etc. for all the members listed]*	Aravind Jayanthi	→	Green
	Dharminsinh Pankajsinh Rathod	→	Purple
	Hrishi Patel	→	Red
	Shreya Jayachandran	→	Blue
	Sukaran Golani	→	Teal
	Sujeet Kc	→	Navy
	Bhavesh Lalwani	→	Maroon
	Farhin Damania	→	Gold
	Sai Chinthirla	→	Yellow
	Sagarkumar Pankajbhai Vaghasia	→	Orange

Round 2 (6:30-7:00)	Participant	GOTO	Group
For example, in round 2, Bhavna will be back in their group (to help run pilot number 2) and a different member (Heli) will now be a pilot tester for the Maroon Group.	Naveed Hussan Khowaia	→	Navy
	Prachi Yadav	→	Blue
	Karan Singh Rathore	→	Gold
	Sanika Tamhankar	→	Yellow
	Aditya Satendra Dixit	→	Maroon
	Shamsheer Singh	→	Orange
	Meghna Kumar	→	Green
	Purvisha Patel	→	Purple
	Dharmik Soni	→	Red
	Sri Venkata Sai Tejaswini Rallapalli	→	Teal

Round 3 (7:15-8:15)	Participant	GOTO	Group
	Ferin Rakeshkumar Patel	→	Gold
	Shivam Dinesh Rank	→	Navy
	Qiwei Sun	→	Blue
	Sangramsinh More	→	Red
	Meghna Rupchandani	→	Green
	Aneri Vishalkumar Shah	→	Teal
	Vanshika Gohel	→	Yellow
	Smriti Mishra	→	Orange
	Jayasree Barla	→	Purple
	Radhey Rupapara	→	Maroon
